

I was sick and tired of my phone ringing all of the time. After the NJ do not call program took affect, I have been able to go on and enjoy my peace and quiet in my home. I am disturbed to ohear that anybody would consider overturning a great thing like this. I DO NOT NEED people soliciting me in my home. Anything and everything I could possibly want to buy or need can be researched on the internet or by me shopping. I don't need people to try to force this on me. PLEASE reconsider. I would like he do not call list to stay. Thank you
Don shearer
